

How to Create Your Own Logbook:

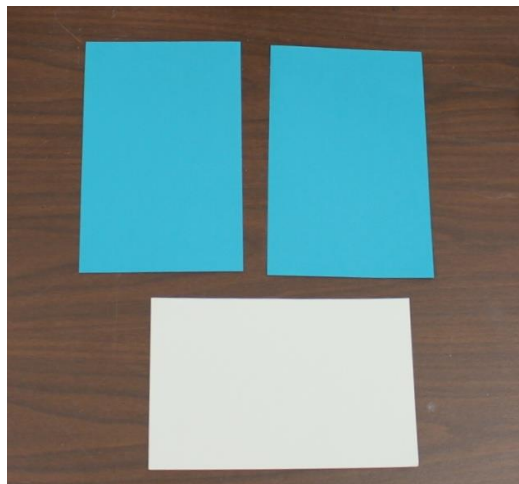

Supplies:

- 1 Sheet of Cardstock (this will be the cover of your logbook)
- Paper to fill your logbook
- 1 Popsicle Stick
- Hole Puncher
- 1 Rubber Band
- Stickers or other decorations (optional)

Directions:

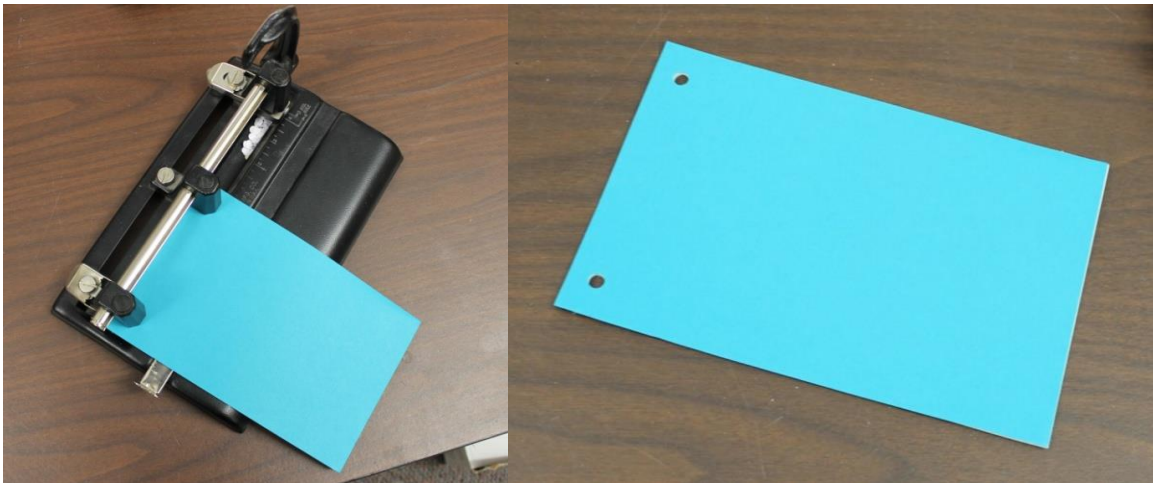

1. Cut both the cardstock and paper in half (hamburger style).

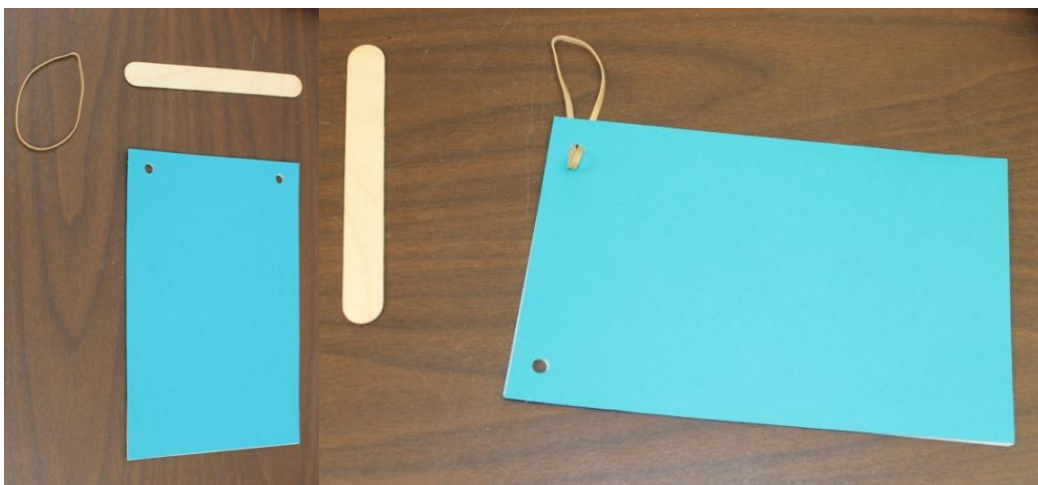

2. Place one piece of cardstock below the paper, and one above the paper.

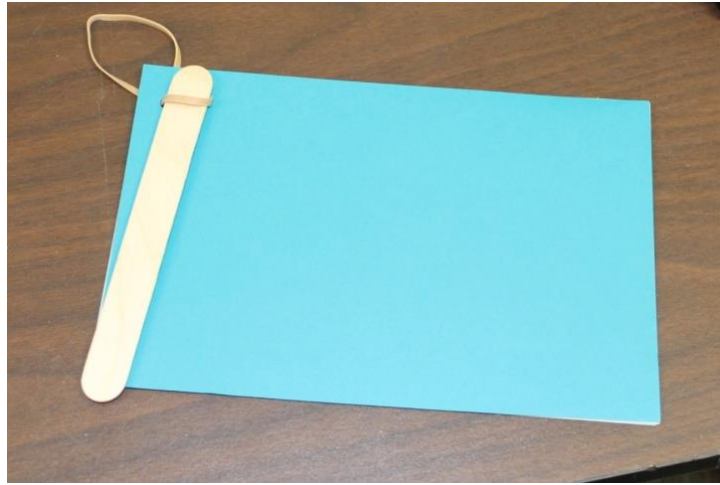

3. Align your pages, and then punch two holes near the top and bottom of your paper and cardstock stack.

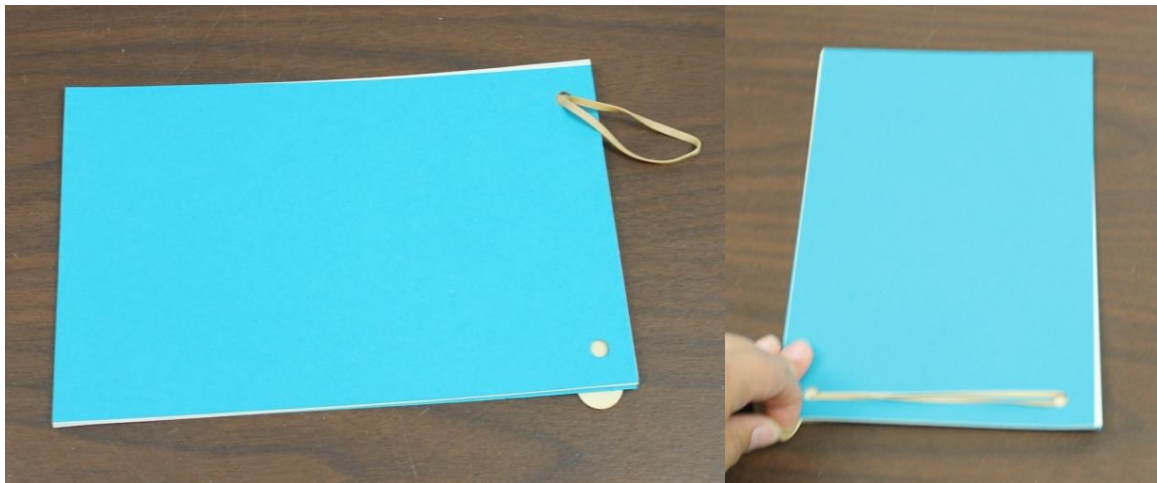

4. Insert the top of the rubber band into the top hole of the book until it creates a loop.

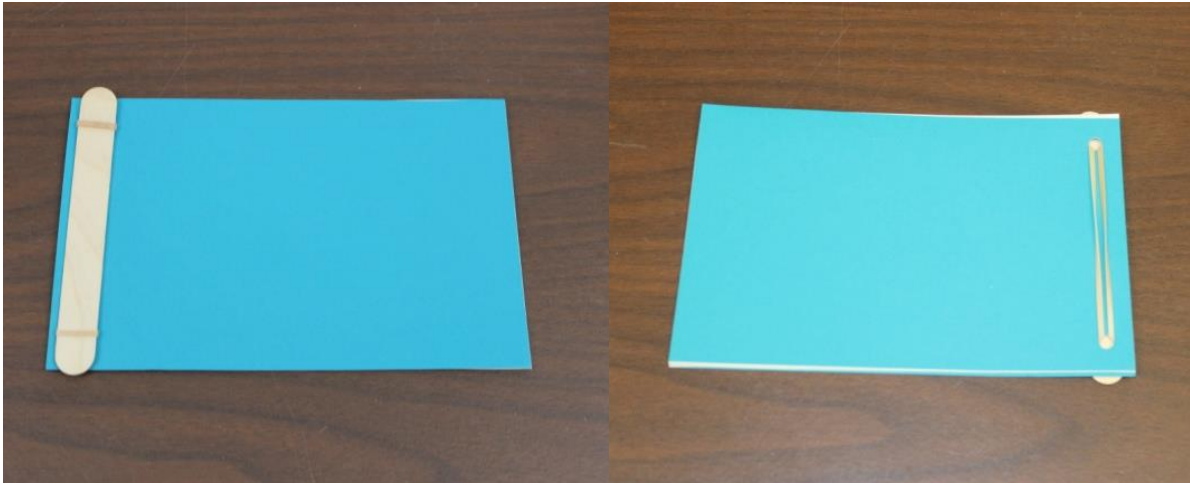

5. Slide the top of the Popsicle stick into the loop made by the rubber band.

6. Turn the logbook over. Pull the rubber band along the back of the book and pull it through the second hole to make a loop.

7. While gripping the small loop, turn the logbook over and then slide the popsicle stick through the loop.

8. Decorate and fill your new Logbook!
